**I. GENERAL INFORMATION FOR PROPOSERS**

Governor Schweitzer and those in his administration firmly believe that all Montanans should have economic security for themselves and their families. Governor Schweitzer is committed to creating stable families through the development of personal, social and financial assets. The governor recognizes that strong families contribute to strong communities and an equally strong economy. It is the hope of this administration that this RFP will bring together collaborative community groups to assist Montana Families, businesses and consumers in the development of a strong economy through the economic security of families. Term of the contract is from July 1, 2009 to June 30, 2010.

**A. GOALS OF THIS REQUEST FOR PROPOSALS**

The State of Montana, Department of Public Health and Human Services (DPHHS), Human and Community Services Division in conjunction with the office of Governor Schweitzer is seeking to contract for the delivery of: **A Family Economic Security Program** through the Temporary Assistance for Needy Families (TANF) Block Grant. The goal of this proposal is to develop projects to ensure that low-income Montanans have access to Montana's economic development.

**B. General Description of Contracted Services**

This RFP is designed to improve family economic security by adding innovative services that are documented to improve financial literacy and assist in building personal assets for families.

Proposals must target the following individuals: 1) Those adults over the age of 18 who are not receiving TANF cash assistance whose household gross income is at or below 185% of the Federal Poverty Level; or 2) Anyone age 16—18 or up to age 19 if still in high school (receiving TANF or not) whose household gross income is at or below 185% of the Federal Poverty Level. Proposals developing innovative services or innovative uses of current services are recommended. Outcome measures must be identified at onset (in the written proposal) and consistent data must be collected throughout the project. Upon the completion of the demonstrations, the results will be used to suggest systemic changes that will promote low-income families' engagement in Montana's economy. These target families must have demonstrated qualifications by having stable housing, health, employment and transportation and have made or are willing to make the commitment to participate voluntarily in personal, financial and economic growth through education, training or other services.

TANF funds available for this project are \$2 million dollars. This money will be appropriated based on the number of successful bidders.

A submitted proposal for which not all pages or attached materials are present at the date and time specified for submission of proposals is not accepted for consideration regardless of cause.

A late proposal is destroyed unless the proposer requests return of the proposal and agrees to pay the costs involved.

**G. Withdrawal and Resubmission**

A proposer may withdraw a proposal at any time prior to the date and time the Department designates the successful proposer or proposers. A proposal withdrawn prior to that date and time may be resubmitted in a modified form if done so within the time period allowed for submittal of proposals.

**H. Compliance with the Terms of This Request for Proposals**

This RFP contains the instructions governing the submission of a proposal, the descriptions of the tasks to be performed, and the requirements necessary to undertake performance. The Department, acting through the procurement official, an evaluation committee, a division administrator and other personnel, determines a proposer's compliance with the requirements of this RFP.

The Department in evaluating the submitted proposals first determines whether a proposal is responsive. A proposal that is not presented substantively in the required format, does not contain all the requested information, contains clearly erroneous information, or is deficient in any respect may be rejected as nonresponsive and may receive no further consideration.

The Department, in its discretion, may request further information, clarification or correction of obvious mistakes from any and all proposers. The Department, in its discretion, may request a proposer to correct obvious mistakes or provide needed clarifications in a proposal either before or after the date for submittal.

A proposer may not unilaterally make changes in a submitted proposal after the date for submittal has passed.

**I. Proposal Format**

A proposal must be written in a **legible type**, be organized by **sections** in accordance with this RFP, have **numbered pages**, and have a **table of contents**. If not in correct format, the proposal will be considered non-responsive.

**J. Proposer's Representations**

A proposer by submitting a proposal for consideration represents that this RFP has been read and is fully understood and that the submitted proposal is based upon that understanding of the specifications, tasks and requirements described in this RFP.

This request for proposals is to be incorporated into and made a part of the contract. Consequently, the provisions of this RFP are to be binding upon the contractor.

The proposer by submitting a proposal agrees that, if it receives and accepts an offer to contract from the Department, it is to be bound by the terms of this RFP and the contract along with any attachments to either document.

A proposer further represents that it has the ability to deliver the services specified, to perform the tasks and responsibilities in accordance with the time lines presented in this RFP, and to deliver the services at no more than the costs specified in the proposer's proposal.

**K. Notice of Ambiguities, Inconsistencies or Errors**

A proposer must provide notice in writing to the Department prior to or at the time of the proposers' conference of any possible ambiguity, inconsistency or error in the RFP that it discovers.

Written questions must be submitted by March 10, 2009. Questions submitted to the Department are to be in writing and directed to the procurement official and address specified in Section B. The questions and answers are distributed to those entities (that have submitted a letter of intent to propose) by March 13, 2009.

Oral questions, other than those presented at the proposers' conference, if held, are not accepted. Any information received by a proposer that does not originate with the procurement official, is not in writing or is not shared with all proposers is not official, is not part of this RFP and may not be relied upon.

The proposers' conference provides potential proposers the opportunity to ask questions concerning the RFP process and the services to be provided. Those proposers wishing to have a proposers' conference must notify the RFP procurement officer by **January 30, 2009**. Any party interested in potentially providing the services to be contracted for is encouraged to attend the proposers' conference. If there is **no interest** in such a conference then **NO PROPOSERS CONFERENCE WILL BE HELD ON FEBRUARY 5, 2009**.

The Department, in its discretion, may request that proposers make presentations concerning their proposals and capabilities as organizations. The Department may specify and limit the particular features of the presentations.

## **N. Public Access and Confidential Information**

### **1. Public Access**

A proposal, inclusive of the information within and attached to the proposal, is submitted for the purpose of evaluation of the proposal and, if the proposer is successful, is then incorporated into the contract as one of the principal features defining and governing performance. Upon entry into a contractual relationship, the Department has the right to use or disclose the proposal and related information to any extent required by law.

All proposals and other information received in response to this RFP are available to the public, except for trade secrets as defined by the Uniform Trade Secrets Act, Title 30, Chapter 14, Part 4, MCA, corporate financial information, matters of personal privacy, and other confidential information as recognized in Montana law.

All proposals are available for inspection during regular business hours. Please contact the procurement official for further details.

The proposer's conference, if held, and the meeting of the evaluation committee are open to the public for observation.

### **2. Submission of Confidential Information**

Proposers are discouraged from submitting information for which there is a claim of privacy unless it is considered essential for proper evaluation of the application. The Department may not be able to enter into a contract with a proposer, if the proposer has claimed that proposal information is confidential, since the information is likely to be considered public information under Montana law.

The Department rejects as nonresponsive any proposal for which there is a claim of privacy for the proposed costs of service delivery or other information that is commonly recognized by the law to not be confidential in nature or, if recognized as confidential, is commonly available to the public based on the public interest in the right to know.

Upon receipt, proposal information is disclosed only to persons participating in the evaluation or contracting process until the proposal has been reviewed and all marked confidential information has been removed. After this review, all remaining proposal materials are open for public inspection and copying. Material marked as confidential may be released at a later date if it is determined that the material is not confidential or that, even if the material is confidential, the public interest in the right to know outweighs the privacy interest. In addition, the Department may release any information for which there is a claim of privacy, if the information is available to the public without restriction from another source or has been released to the public otherwise by the proposer.

In order for a proposer to claim that information presented in the proposal is confidential, the following conditions must be met:

- 1) Information for which confidentiality is claimed must be clearly marked and separated from the rest of the proposal.
- 2) An affidavit from the proposer's legal counsel attesting to and explaining the claim of privacy for the information must be attached to the proposal.
- 3) A proposer making any claim for protection of information in a proposal as confidential must indemnify the Department in writing for the retention and costs of legal counsel and all other

legal costs and fees necessary for and related to any defense of the claim of privacy.

Documents not meeting all of the requirements for protections from release based on confidentiality are available for public inspection, including copyrighted materials.

**0. Costs of Developing and Presenting Proposal**

The cost of developing and presenting a response to this RFP is entirely the responsibility of the proposer and is not reimbursable by the Department.

**P. Rights Reserved To the Department**

While the Department intends to award a contract, issuance of this RFP and the conduct of the selection process is a discretionary act and does not commit the Department to the award of a contract.

The Department reserves the right to:

- 1) Amend or cancel or terminate this RFP process;
- 2) Reject any or all proposals received; and
- 3) Waive any procedural or substantive requirement of this RFP that it determines does not substantively impact in a negative way this RFP process or any or all of the proposers.

The right of the Department to waive a requirement of this RFP does not afford a proposer the right to unilaterally fail to comply with a requirement or to obtain a waiver of a requirement.

**II. SERVICES TO BE PROVIDED**

**A. Contracted Services**

The services may include, but are not limited to the following:

1. Completion of a curriculum to increase the families' knowledge in financial literacy that may include credit options, tax incentives or options, savings benefits and lending issues; **AND,**
2. Completion of a comprehensive financial asset development strategy which may include options such as Individual Development Accounts (IDA's), Match Savings Accounts, or home ownership; **OR**
3. Receiving education or training in a high demand field leading to employment with an increased wage through college, employment or other specialized training.

Proposals must ensure all families receive the services described in #1 above and at least one of the services described in #2-3.

**Service Population**

Applications can be accepted for the following service population:

1. Adults over the age of 18 who are not receiving TANF cash assistance whose household gross income is at or below 185% of Federal Poverty Level; or
2. Anyone age 16—18 or up to age 19 if still in high school (receiving TANF or not) whose household gross income is at or below 185% of Federal Poverty Level.

The Department will expect quarterly reports on progress, successes and failures of the projects as well as will expect project participation in outcome measure evaluation as determined by the Department.

It is required that successful proposals will form partnerships with at least three key community partners such as two-year colleges, tribes and or tribal colleges, Human Resource Development Council's, workforce development community teams, financial education network members and nonprofit or private businesses as demonstrated through written memorandum of agreements. The local Offices of Public Assistance and Work Readiness Component (WoRC) operators are considered mandatory partners and must be included in the proposal. At least one proposal from an urban collaboration, a rural and a tribal government collaboration will be funded. Preference will be given to proposals that include utilization of statewide efforts or curriculums and demonstrate stateside effectiveness. In addition, a preference will be given to efforts to bring additional funding or opportunities to leverage the funding.

Desired services must include:

- A plan to provide services to accomplish the goals stated above. The plan must address the one required plus one chosen element from the list above. Innovative other elements may be added.
- Details on services to be provided.
- Project budget and narrative.

- A plan to provide project sustainability (leverage funding).
- A description of outcomes and goals for the project and how they contribute to the overarching goal of family economic security. Goals must be measurable.
- Other reports may be required at the request of the Department.

**B. Term of Contract**

The term of this contract is generally for one year (July 1, 2009-June 30, 2010). However, the contract may be extended for up to three more years (each year a single extension). This may create a four-year cycle for the RFP process for the Family Economic Security Program. There is no guarantee that a contract will be awarded, or once awarded that it will extend beyond the one-year term.

**C. Number of Contracts to be Awarded**

It is the intent of the Department to award as many contracts as necessary to fulfill the goals. At least one proposal from an urban collaboration, a rural and a tribal government collaboration will be funded.

**D. Consideration**

Consideration under the contract will be as specified by the Department based upon the available funding for the services and the cost of services as specified by the successful proposer in its proposal or as specified in best and final negotiations between the parties.

The Department within its discretion may change the consideration during the term of the contract due to reductions in federal or state funding for the services, due to changes in responsibilities that were not contemplated at the time of award of the contract, or due to programmatic changes.

Upon extension of the term of the contract, the Department provides no assurances that consideration would be increased even to cover increased costs.

A lead agency will be required for collaborative proposals for reimbursement procedures. This assures that payment will be made timely and per Department contracting procedures.

Invoicing will be done in accordance with the practices of the Department.

### **III. INFORMATION ON CONTRACTUAL RELATIONSHIP**

#### **A. Contract Provisions and Attachments**

This RFP with related attachments and the successful proposal, along with any modifications agreed to by the Department, are to be attachments to the resulting contract.

The Department in the contract to be signed may remove contractual provisions that appear with this RFP, add contractual provisions that do not appear with this RFP, or change contractual language from that appearing with this RFP.

The attached "Contract for Services Format" contains the standard, general and specific contractual provisions that are to be applicable to the contractual relationship between the Department and the Contractor.

Any additional service plans per legislative mandates that need to be expressly written up become an attachment to the contract and are binding.

#### **B. Consideration and Payments**

The consideration under the contract may not vary from that stated in this RFP or in the proposal, which ever is applicable, unless the RFP specifically provides that the consideration is subject to change either through negotiation of the parties or at upon the action of the Department.

The Department within its discretion may during the term of the contract terminate the contract or renegotiate the consideration due to reductions in federal or state funding for the services, due to changes in responsibilities that were not contemplated at the time of award of the contract, due to programmatic changes or due to changes in the circumstances governing the delivery of the services.

Upon extension of the term of the contract, the Department provides no assurances that consideration would be increased at that time as requested by the contractor to cover possible increased costs.

Invoicing and payments are to be done in accordance with the practices of the Department.

See the "Consideration and Payments" provision in the "Contract for Services Format".

#### **C. Assignment, Transfer, and Subcontracting**

The proposer that becomes a contractor is the prime contractor and is responsible in total for all work performed under the contract. The contractor may not assign, transfer, or subcontract any responsibilities or duties under the terms of the contract without the written approval of the Department. All intended subcontractors must be listed in the Proposer's proposal.

The contractor is responsible to the Department for the acts and omissions of all subcontractors and of persons directly or indirectly employed by subcontractors, and for the acts and omissions of persons employed directly by the contractor.

Nothing contained within this RFP or any contract documents derived from this document creates any contractual relationship between any subcontractor and the Department.

See the "Assignment, Transfer and Subcontracting" provision in the "Contract for Services format".

**D. Allowable Costs and Audits**

**1. Allowable Costs**

Costs are only allowable in the expenditure of federal monies if in substantial compliance with the following cost principles:

The cost principles applicable to federal funding received by a governmental or nonprofit entity are those adopted at 45 CFR 74.27 and 92.22. Those provisions incorporate by reference the following OMB Circulars or other regulations:

- \* OMB Circular A-21 - Cost Principles for Educational Institutions
- \* OMB Circular A-87 - Cost Principles for State and Local Governments and Indian Tribal Governments
- \* OMB Circular A-122 - Cost Principles for Non Profit Institutions
- \* 45 CFR 74, Appendix E - Cost Principles for Hospitals
- \* 45 CFR Part 263 – Expenditures of State and Federal TANF Funds

**THE OMB CIRCULARS REFERENCED MAY BE OBTAINED THROUGH THE WEBSITE FOR THE OFFICE OF MANAGEMENT OF THE BUDGET AT [WWW.WHITEHOUSE.GOV/OMB](http://WWW.WHITEHOUSE.GOV/OMB). AT THAT WEBSITE CLICK ON "GRANTS MANAGEMENT" TO ACCESS THE PAGE WHEREIN THE CIRCULARS MAY BE CALLED UP AND OBTAINED BY PRINTING.**

The cost principles applicable to federal funding received by a for profit entity are those adopted for commercial organizations set forth in the Federal Acquisition Regulation at 48 CFR Part 31.2. A profit, that being an amount in excess of actual allowable, allocable, and reasonable direct and indirect costs, is unallowable except for the routine purchase of goods or services on a standard charge or fee basis.

The fact that a cost requested in a budget is awarded, as requested, does not ensure a determination of allowability. The entity is responsible for presenting costs consistently and in accordance with the relevant authorities governing cost principles.

The cost principles that determine allowability encompass four tests: reasonableness, allocability, consistency, and conformance with the purposes, limitations and exclusions as specified in the terms and conditions of the contract and other applicable authorities.

Reasonableness

A cost may be considered reasonable if the nature of the goods or services acquired or applied and the associated dollar amount reflects the action that a prudent person would have taken under the circumstances prevailing at the time the decision to incur the cost was made. The cost principles elaborate on this concept and address considerations such as whether the cost is of a type generally

necessary for the organization's operations or the contract performance; whether the recipient complied with its established institutional policies in incurring the cost; and whether the persons responsible for the expenditure acted with due prudence in carrying out their responsibility to the funding program and the public as well as to the organization.

#### Allocability

A cost is allocable to a specific contract, function, department, etc., known as a cost objective, if the goods or services involved are chargeable or assignable to that cost objective in accordance with the relative benefits received or other equitable relationship. A cost is allocable to a contract if it is incurred solely in order to advance work under the contract; it benefits both the contract and other work of the institution, including other contract-supported projects; or is necessary to the overall operation of the organization and is deemed to be assignable, at least in part, to the contract.

Any cost allocable to a particular program or cost objective under these principals may not be shifted to other programs to overcome fund deficiencies, avoid restriction imposed by law or grant agreement or for other reasons.

Family Economic Security regulations for allowable expenditures and a 15% administrative cap will be followed. Administrative costs are defined as fiscal duties, director's wage, indirect costs (costs not readily identifiable) and IT costs.

The contractor agrees not to use contract funding to compensate personal services in excess of the Federal Cost of Living Adjustment. This includes but is not limited to salary increases, cost of living differentials, and incentive awards and bonuses.

#### Consistency

A contractor must be consistent in assigning costs to cost objectives. Therefore, costs must be treated consistently for all work of the organization under similar circumstances, regardless of the source of funding, so as to avoid duplicate charges.

#### Conformance

The expenditures of the monies received through the contract must be in conformance with the purposes, limitations and exclusions as contained in the terms and conditions of the contract. These expenditures must be properly recorded and supported by source documentation.

## **2. Audits**

A governmental or nonprofit entity contractor is subject to the audit requirements of OMB Circular A-133, as implemented by 45 CFR 74.26 and 92.26, if that entity is spending \$500,000 or more per year in federal monies.

A for profit entity contractor is subject to the audit requirements stated in 45 CFR 74.26(d), if that entity is spending \$500,000 or more per year in federal monies. Under that provision, a for profit entity may either have an audit conducted in accordance with OMB Circular A-133 or the Government Auditing Standards. The Government Auditing Standards are available in the document GPO stock #020-000-00-265-4.

An audit for the purpose of the contractual relationship is a systematic review made to determine whether internal accounting and other control systems provide reasonable assurance that:

- \* Financial operations are properly conducted;
- \* Financial reports are presented fairly and accurately;
- \* Applicable laws, regulations, and other grant terms have been complied with;
- \* Resources are managed and used in an economical and efficient manner; and
- \* Desired results and objectives are being achieved in an effective manner.

The cost principles cited above are an essential feature of any audit.

State law, 5-13-304 and 18-1-118, MCA, provide that the State may conduct its own audits. The Legislative Auditor, the Department, or federal auditors may conduct audits for federal and state purposes. The Department may use its own or contract personnel for purposes of conducting audits. Those audits are in addition to the standard annual independent audit arranged for by the contractor in accordance with 45 CFR 74.26 and 92.26. Audits conducted by the Department may include tests for programmatic conformance.

**AGAIN, THE OMB CIRCULAR REFERENCED ABOVE MAY BE OBTAINED THROUGH THE WEBSITE FOR THE OFFICE OF MANAGEMENT OF THE BUDGET AT WWW.WHITEHOUSE.GOV/OMB. AT THAT WEBSITE CLICK ON "GRANTS MANAGEMENT" TO ACCESS THE PAGE WHEREIN THE CIRCULARS MAY BE CALLED UP AND OBTAINED BY PRINTING.**

### **3. Audit Settlements**

The Department reserves the right to set the terms of settlement for any audit that results in findings that the contractor owes the Department monies.

Settlement may encompass, but is not limited to, payment of monies owing in a lump sum or through payments paid by the Contractor, recoupment by the Department of the monies owing from current contractual payments to be made by the Department to the Contractor, the receipt of equipment and other items the current value of which is equivalent to the sum of the monies owing, the receipt of services the current value of which is equivalent to the sum of the monies owing, or the receipt of interests in real property the current value of which is equivalent to the sum of the monies owing. The choice of the mode of settlement is within the discretion of the Department to determine.

See the "Accounting, Cost Principles and Audit" provision in the "Contract For Services Format".

### **IV. SELECTION PROCESS**

#### **A. In General**

The selection of the proposer or proposers to be offered a contract with the Department for the purposes of this RFP is a discretionary act of the Department.

The selection of the proposer or proposers to be offered a contract is the responsibility of the administrator of the division that administers the program of services.

The procurement official for the Department reviews the proposals initially to determine whether they have been submitted by the required time and date, whether they are in form and content in compliance with this RFP, and whether there are any matters such as claim of confidential material

that must be immediately addressed.

The proposals that appear to be responsive are submitted to an evaluation committee to be evaluated in relation to the scored criteria. The evaluation committee, in addition to evaluating the scored criteria, may recommend that a proposal be rejected as nonresponsive for either form and content or failure to meet substantive requirements of this RFP.

The proposal evaluation committee, based upon the scores compiled by the committee, recommends to the administrator of the division the proposal or proposals to be selected.

The administrator of the division determines which departmental staff is to obtain reference information from references and other sources.

The administrator, based on information from references or other sources concerning matters of past performance or integrity and total cost, may select a proposer other than the proposer recommended by the evaluation committee.

The Department reserves the right to amend or cancel and terminate this RFP at any time.

**B. Proposal Evaluation Committee**

A Proposal Evaluation Committee is established by the Department to evaluate all proposals for the program determined to be responsive and to make a recommendation based on the scored evaluation portion of the selection process as to the proposer or proposers to which contracts should be offered.
